SUMMARY

Aspiring Web Developer with a solid foundation in both front-end and back-end technologies. Proficient in JavaScript, HTML, and CSS, enabling the creation of responsive and interactive web interfaces. Familiar with Python for problem-solving and automation, as well as C programming. Highly motivated to contribute to web development projects, with a strong commitment to learning and adapting to new technologies. Seeking opportunities to enhance my skills and grow within a dynamic development environment, whether in frontend or backend roles.

EXPERIENCE

Fresher

EDUCATION

Indra Gandhi National Open University
Delhi
Pursuing
B.Com
2021-2024

Studied financial accounting, management, and economics, providing a foundation in business principles.

NavGurukul
Himachal Pradesh
Web Development Course
Sep 2023 - Present

NavGurukul is a non-profit initiative to provide meaningful alternative to college education.

PROJECTS

Food Menu
20th, July 2024

Created a basic food menu application entirely in JavaScript, utilizing conditions and loops to manage and display menu items. This project demonstrates my understanding of core programming logic and my ability to build functional applications without relying on additional technologies like HTML or CSS.
